

# ICIQ's 10th Anniversary Scientific Symposium

July 16-18, 2014

ICIQ<sup>R</sup>

Institut Català  
d'Investigació Química

## Tentative schedule

- Wednesday**  
16th July
- 09:00 - 09:15** *Opening remarks (Miquel A. Pericàs, ICIQ director)*
- 09:15 - 10:15** **Peter J. Stang** (University of Utah, USA)  
*Abiological Self-Assembly: Predesigned Metallacycles and Metallacages Via Coordination*
- 10:15 - 10:45** *Coffee Break*
- 10:45 - 11:45** **Jin-Quan Yu** (The Scripps Research Institute, USA)  
*To be announced*
- 11:45 - 12:45** **Andreas Pfaltz** (University of Basel, Switzerland)  
*New Catalysts, Substrates, and Screening Methods for Asymmetric Synthesis*
- 15:00 - 16:00** *Poster Session*
- 16:00 - 17:00** **Stephen L. Buchwald** (MIT, USA)  
*Metal-Catalyzed Transformations for Organic Synthesis*
- 17:00 - 18:00** **David MacMillan** (Princeton University, USA)  
*Photoredox Catalysis in Organic Chemistry*
- Thursday**  
17th July
- 09:00 - 10:00** **Phil S. Baran** (The Scripps Research Institute, USA)  
*Studies in Natural Product Synthesis*
- 10:15 - 10:45** *Coffee Break*
- 10:45 - 11:45** **Julius Rebek** (The Scripps Research Institute, USA)  
*Recognition and Catalysis in Deep Cavitands*
- 11:45 - 12:45** **Thomas Carell** (LMU München, Germany)  
*New Epigenetic Bases that Expand the Genetic Code*
- 15:00 - 16:00** *Poster Session*
- 16:00 - 17:00** **Erick M. Carreira** (ETH Zürich, Switzerland)  
*To be announced*
- 17:00 - 18:00** **Amos B. Smith** (University of Pennsylvania, USA)  
*Evolution of Anion Relay Chemistry (ARC): Design, Synthesis and Validation of Recoverable Siloxane-Based Transfer Agents for Palladium-Catalyzed Cross-Coupling Reactions*
- Friday**  
18th July
- 09:00 - 09:45** **Javier Pérez-Ramírez** (ETH Zürich, Switzerland)  
*From Research to Technical Catalyst: A Fascinating Journey*
- 09:45 - 10:30** **Zoraida Freixa** (Ikerbasque, Spain)  
*From Homogeneous Catalysis to Photochromic Materials... and Back!*
- 10:30 - 11:00** *Coffee Break*
- 11:00 - 11:45** **Ramon Vilar** (Imperial College London, UK)  
*Metal Complexes as Molecular Tools to Understand G-Quadruplex DNA*
- 12:00 - 14:00** *Institutional event: ICIQ's Fèlix Serratosa Medal to Professors Luis Oro and Ernesto Carmona.*
