

***How Do Functional Groups Interact? A Lesson
From [m.n] Paracyclophane Chemistry***

Prof. Dr. Henning Hopf

Technical University Braunschweig (Germany)

Friday 27th September, 2013. ICIQ Auditorium, 12 p.m.

Professional career

Since 2006: Prof. emeritus at the Technical University of Braunschweig
1978 – present: C4-Professor, Technical University of Braunschweig
1975 - 1978: C3-Professor, Karlsruhe University
1972 – 1975: Adjunct Professor and Oberassistent, Karlsruhe University
1969 – 1972: Assistant, Karlsruhe University
1972: Postdoctoral fellow at the University of Reading, England with H. M. Frey
1972: Habilitation, Karlsruhe University with H. Musso
1967 – 1969: Assistant, University of Marburg
1967: Doctor of Philosophy, University of Wisconsin, Madison, Wis, U.S.A with H.L. Goring on solvolysis reactions of benzhydryl esters.
1965: Master of Science, University of Wisconsin, Madison, Wis. U.S.A
1963: Vordiplom Chemie (B.Sc), University of Göttingen

Membership in scientific organizations

Gesellschaft Deutscher Chemiker since 1963
American Chemical Society since 1965
Royal Society of Chemistry since 1979
Schweizerische Chemische Gesellschaft since 1979
European Photochemical Association (EPA) since 1978
