

***Synthesis, Aggregation and Applications of
Pincer Type Organometallics***

Dr. Tao Tu

Fudan University, Shanghai (China)

Thursday 9th May, 2013. ICIQ Auditorium, 12 p.m.

Professional career

2009.4 – present Professor, Department of Chemistry, Fudan University, China
Research Focus: Organometallic, Catalytic and Supramolecular Chemistry

2005.11 – 2009.6 AvH Research Fellow, Researcher Assistant, Universität Bonn, Germany

Research Focus: Organometallic, Catalytic and Supramolecular Chemistry

2003.11 – 2005. 11 Postdoctoral Fellow, Université de Montréal, Canada
Advisor: Professor James D. Wuest

Research Focus: Supramolecular chemistry and Crystal Engineering

1998. 9 – 2003. 10 Ph.D, Shanghai Institute of Organic Chemistry (SIOC), CAS
Supervisor: Professor Li-Xin Dai (Academician of CAS)

Research Focus: Asymmetric Synthesis, Catalyst, Organometallic Chemistry

1994.9 – 1998.8 B.Sc., Honors, Analytical Chemistry, East China Geological Institute, China

Awards Received

Shanghai Qimingxing Research Fellow (A), 2010

Alexander von Humboldt Research Fellow, Germany, 2006

Research Interests

Supramolecular Chemistry / Organometallics and Asymmetric Synthesis
